ABOUT THE COMPANY

Lazord is a leading company in Amman, Jordan, specialized in importing, supplying, and installing high-quality swimming pool and Jacuzzi equipment. Our expertise covers saunas, steam rooms, fountains, waterfalls, and hot tiles for sports clubs, health centers, and wellness facilities. We also design and implement Turkish, Moroccan, and Levantine baths, as well as solutions for beauty centers and salons, delivering trusted equipment with professional installation.

We are proud to represent some of the most respected brands in the global swimming pool technology market as their exclusive distributor in the Hashemite Kingdom of Jordan, with high-quality products from European, Turkish, and Chinese companies.

Your Choice of Lazordjo Products
For your pool and water landscape needs, and experience the difference that comes with working with Lazordjo leading pool technology solutions provider.

QUALITY ASSURANCE

At Lazordjo, our commitment to excellence is evident in our adherence to recognized international standards. Our products are manufactured in the best global factories, which have received international quality certifications that reflect our commitment to maintaining the highest standards and operational practices:

- ISO 9001:2015 Quality Management System certification.
- ISO 45001 Occupational Health and Safety Management System certification.
- ISO 14001 Environmental Protection System certification.

These certifications underscore our adherence to rigorous quality, safety, and environmental management standards, ensuring that we deliver exceptional products and services.

Commitment to Quality:

Our primary goal is to deliver products and services that exceed customer expectations. We focus on selecting distinguished Products with high-quality materials to ensure that our swimming pool and water feature accessories and equipment are durable, efficient, and competitively priced. We guarantee that our offerings meet the highest standards of quality and value.

Thorough Testing and Evaluation:

We take quality assurance seriously by conducting extensive quality and operational tests on all our products. Our testing procedures go beyond industry norms, simulating real operating conditions to ensure safety and performance. Every product undergoes meticulous evaluation before it is made available for sale, ensuring that only the highest quality products reach our customers.

Skilled Maintenance and Support:

Our maintenance team plays a crucial role in supporting our products throughout their lifecycle. We carefully select and train our maintenance personnel to perform routine maintenance and repairs with precision. Equipped with the latest tools and technology, our team maintains a high professional standard and addresses any issues promptly, ensuring the continued excellence of our products.

Employee Training and Development:

We invest significantly in the training and development of our employees. Annual budgets are allocated to enhance their technical skills through specialized training programs. This investment supports our commitment to producing high-quality products and delivering outstanding services, contributing to our company growth and success.

Customer Feedback and Satisfaction:

Customer satisfaction is central to our quality assurance approach. We actively collect and analyze feedback and complaints to refine our services and products. Positive feedback helps us reinforce our strengths, while constructive criticism drives improvements. Our multiple communication channels, including telephone, email, and social media, ensure effective interaction with customers, with a well-trained customer service team ready to assist.

Innovation and Continuous Improvement:

Innovation is integral to our strategy for maintaining high standards. We encourage employees to contribute new ideas to enhance our processes and products. Regular reviews and performance analyses are conducted to identify opportunities for improvement, ensuring that we continually advance and refine our practices.

FILTRATION SYSTEM

COMPACT FILTRATION UNIT

COMPACT FILTRATION UNIT

Optimize water clarity with the LPS Filtration Unit, engineered for high-efficiency filtration & removal of any debris in both pools and spas.

TECH. SPECS & DIMENSIONS:

Type:	Filtration Unit
Material:	Polyethylene, Chemical resistant & UV protection
Installation:	Wall mounting
Dimensions :	718*1121*1220mm
Warranty:	2 years

OPTIONAL COMPONENTS:

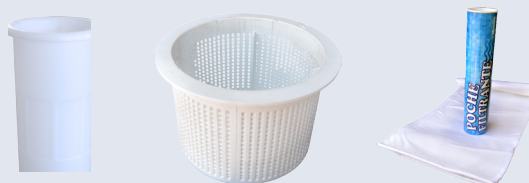

Pump

Valve

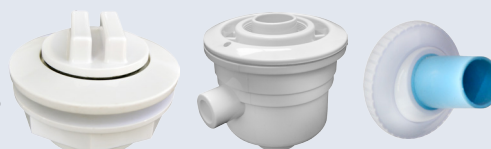

Filter

Underwater light

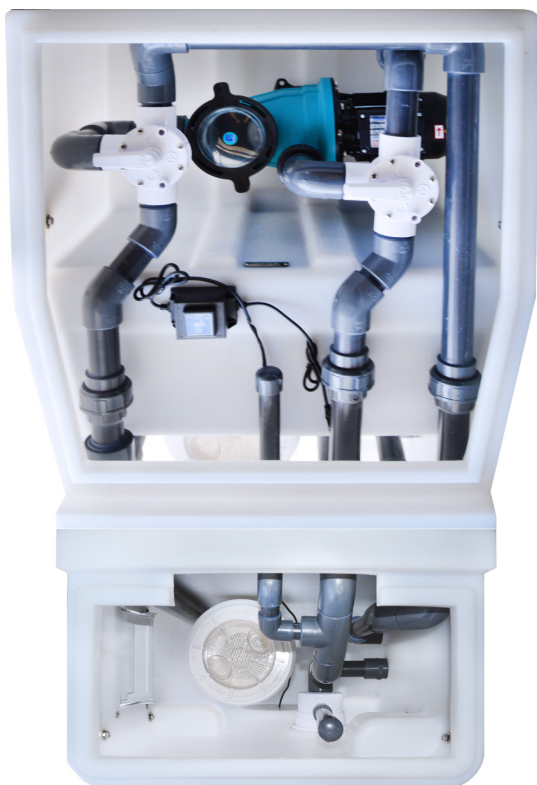

White goods

Handrails

OPTIONAL COMPONENTS:

Pump:

- Material: Thermoplastic
- Capacity: 1.5 HP
- Head: 6m
- Flow: 24.8
- Power: 30V\60 HZ
- DIN-IN: 50mm
- DIN-OUT: 50mm
- Protection: IP55
- Thermal Protector: TI. USA
- Insulation: F
- Protection: IP55
- Power: up to 1.5 HP, Q max: 15 m/h
- Voltage: 220V/50HZ
- Max flow: 26 m/h at head 4 m
- Max head: 16 m at flow 15 m/h
- Model: Streamer Mini

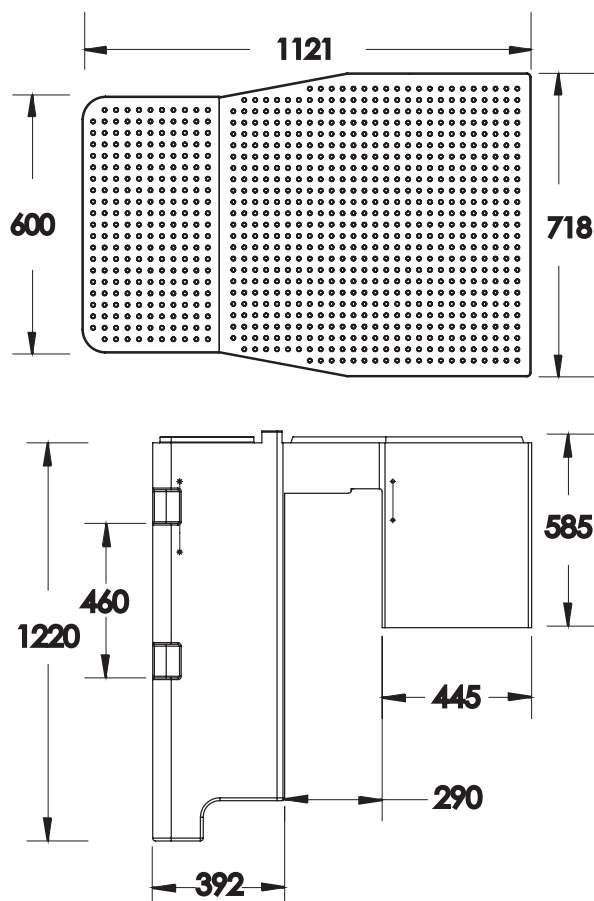

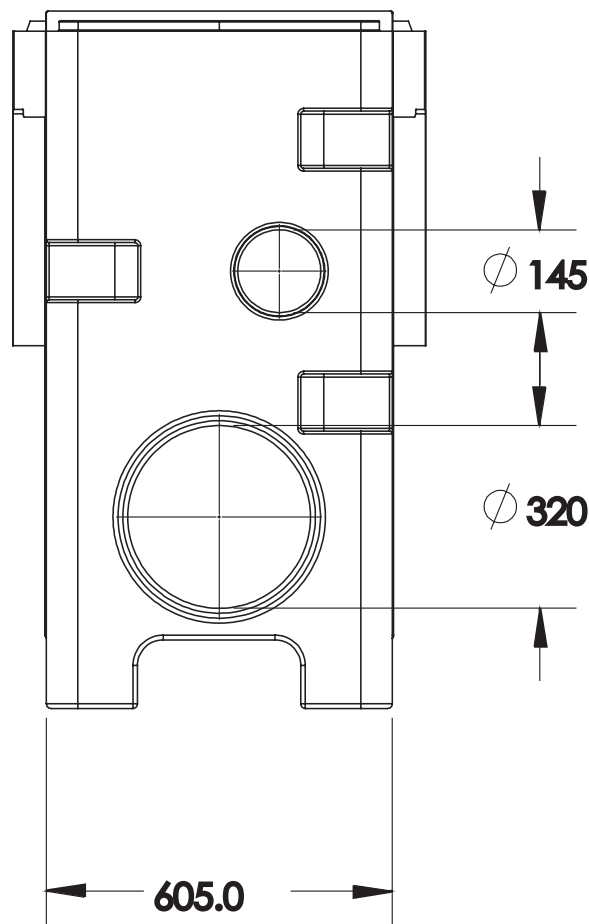

Filter:

- Material : 100% Polyester Microns
- Precision of filtration bag : 6
- Weight : 450gm/m2
- Filter , Thickness : 2mm
- Operating Temp. : 135°C / dry
- Operating Temp. : 95°C / moist

Light:

- Color : white - daylight - blue & RBC
- Watt : 24w
- Voltage : 12v
- Lumin : 1500 lumin
- Model : ECOslim LED

- Optional Components may vary as per customer request and agreements

SAND FILTERS

- TOP MOUNT SAND FILTER 16"
- TOP MOUNT SAND FILTER 19"
- TOP MOUNT SAND FILTER 24"
- TOP MOUNT SAND FILTER 31"
- TOP MOUNT SAND FILTER 36"

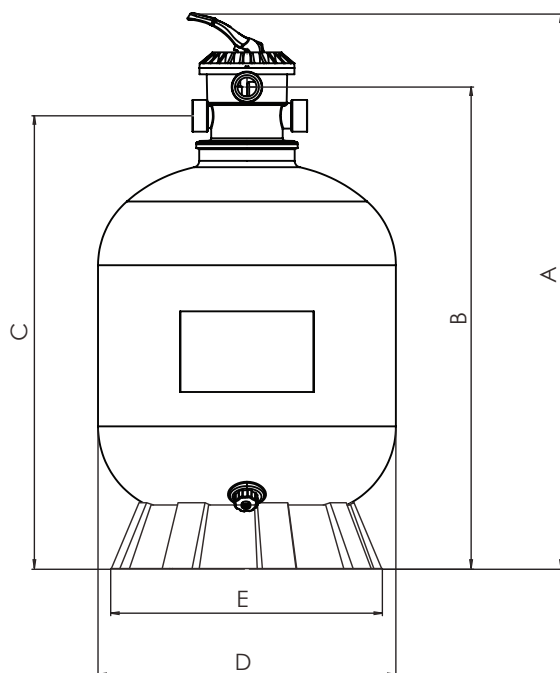

TOP MOUNT SAND FILTERS

Experience superior filtration, durability, and reliability with Lazordjo Sand Filter engineered for peak performance in demanding applications.

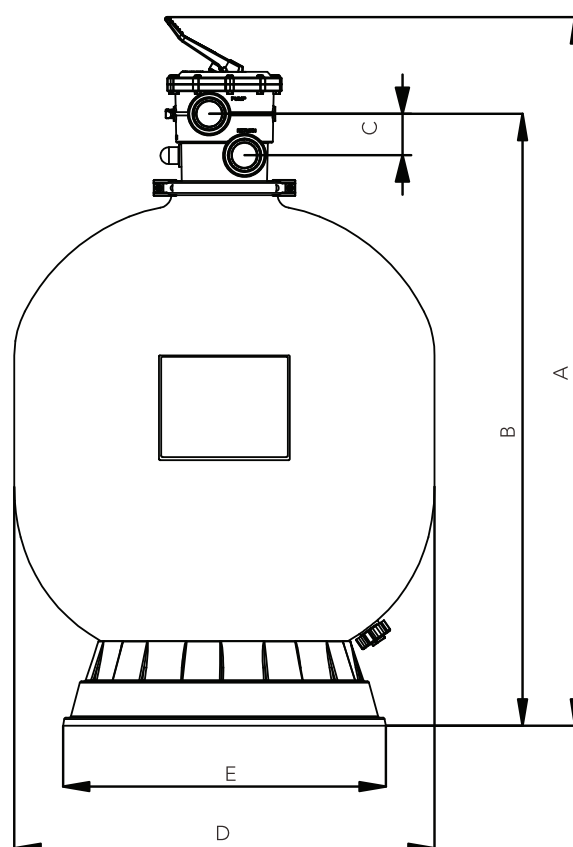

- **Optimized Water Distribution:** Ensures even water flow across the sand media bed for consistent filtration performance.
- **Efficient Internal Design:** Features 2-inch internal piping for smooth, unrestricted water flow and enhanced system efficiency.
- **Manual Air Relief Valve:** Eliminates air pockets during operation, ensuring trouble-free performance.
- **Durable Construction:** Crafted from corrosion-resistant, rugged thermoplastic with a spherical tank design for maximum strength and extended lifespan.
- **Advanced Self-Cleaning Laterals:** Brazilian-engineered laterals ensure balanced flow, effective backwashing, and easy maintenance.
- **Low Maintenance Design:** Built for easy servicing, reducing downtime and operational costs.

VACUUM SPIRAL HOSE

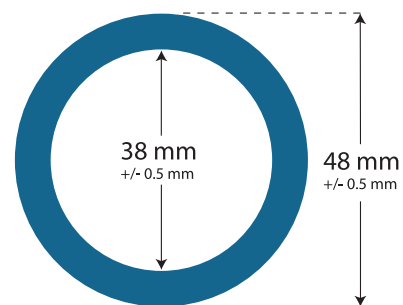

Introducing today's market-leading pool hose unparalleled in durability, innovation, and reliability!

pool hose stands out for its superior quality and flexibility. This floating hose is versatile, serving various purposes such as connecting to a filter pump, cleaning unit, backwashing, and efficiently extracting water in conjunction with a pool vacuum. Resilient to pressure and designed to float on the water's surface, this hose exhibits outstanding resistance to both chlorine water and UV radiation. Crafted from robust PE plastic, it surpasses standard water hoses in strength, stability, scratch resistance, and tear resistance. Notably, the material is non-toxic and skin-friendly. Characterized by its lightness, ease of handling, and weather resistance, Lazordjo pool hose is available in blue and black, with lengths of 5,7, 10 ,15, and 30 meters, featuring an inner diameter of 38mm. Manufactured to the highest standards,Lazord pool hoses feature easily identifiable swivel cuffs on each hose. These flexible hoses are the ideal choice for both household and professional use in maintaining clean water pools. All our products come with a guarantee for immediate replacement in case of manufacturing defects.

KEY FEATURES:

- Spiral design prevents kinking, crushing, or collapsing even under high vacuum conditions.
- Highly resistant to UV radiation and chlorinated water, abrasion-resistant, flexible, and pressure-resistant.
- Exceptionally resistant to high-temperature weather conditions.
- Crafted from PE plastic, enhanced with several additions for durable flexibility and pressure resistance.
- Neutral buoyancy (floating hose).
- Swivel cuff to prevent twisting.
- Ideal for connecting to a cartridge or sand filter system, suction inlet and pool cleaners.

TECH. SPECS & DIMENSIONS:

INNER DIAMETER	38 mm +/- 0.5 mm.
OUTER DIAMETER	48MM +/- 0.5 mm.
LENGTH	7,5,10,15,30 meters *
COLOR	Light blue & black.**
MATERIAL	%100 Pure PE & additives.
CONNECTION	360 Swivel cuff & Fixed cuff.

* Custom length can be Specially ordered

** Special Colors can be Specially ordered

*** Fixable packing or carton pack

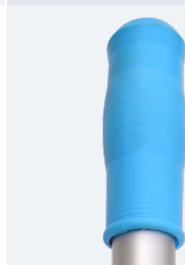

TELESCOPIC HANDLES

Maintain a pristine pool environment with the LPS Telescopic Handle.

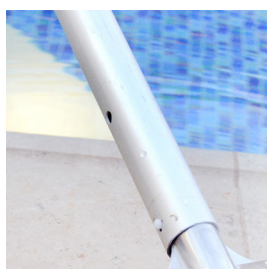

Designed for versatile and efficient cleaning across all pool types. Engineered with high-strength, lightweight materials, this telescopic handle provides extended reach and durability, making it an essential tool for ensuring a clean and hygienic pool.

Strong Connection!

Comfort Hand Design!

High Quality Aluminum Arm!

KEY FEATURES:

Material:	Anodized Aluminum
Pipe thickness	1.2 mm
Pipe Diameter:	32 mm
Connection:	Via clip or butterfly nut
Inner Lock Color:	Light Blue*
Available in 4 sizes:	(5m-7m-9m-12m)

PIPE SPECS	A	B	C	WEIGHT
Outer Diameter	32mm	28mm	25mm	-

ALUMINUM VACUUM HEAD

Achieve pristine pool waters with the LPS Vacuum, specifically tailored for concrete pools. Engineered for maximum efficiency.

This cleaning tool is your ideal choice for maintaining a clean and hygienic pool environment.

KEY FEATURES:

Type:	Concrete pool vacuum
Material:	Anodized Aluminum
Pool Type:	Concrete Pools
Connection:	1.5" (38 mm)
Sizes:	Available in 2 sizes 35cm & 45 cm

LINER VACUUM HEAD

Ensure your pool's cleanliness with the LPS Liner Vacuum Head, featuring an air relief valve specifically designed for liner pools.

KEY FEATURES:

Type:	Liner Vacuum head with air relief valve
Material:	Plastic
Pool Type:	Liner Pools
Connection:	1.5" (38 mm)

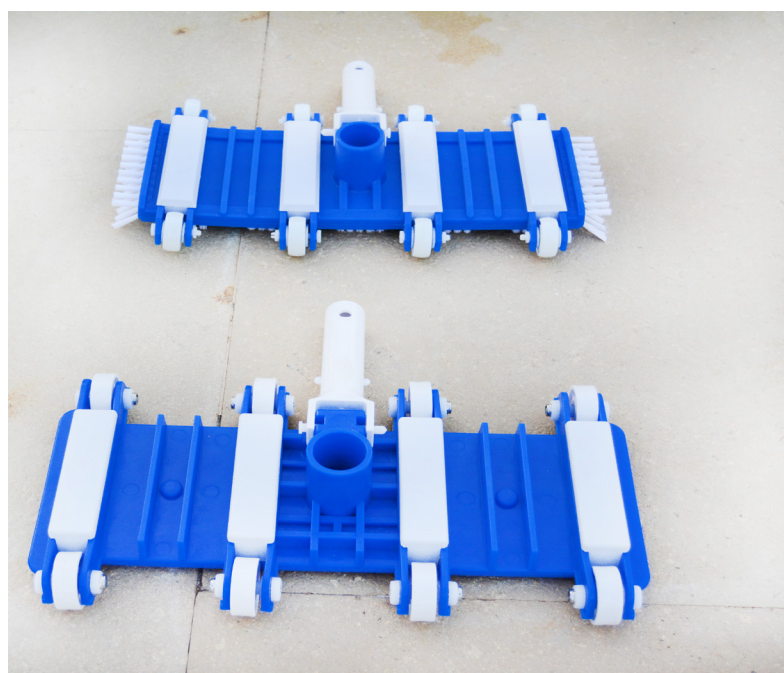

PLASTIC VAC. HEAD 8 WHEELS

Ensure optimal pool cleanliness with the LPS plastic Vacuum Head, engineered specifically for liner & concrete pools.

This cleaning tool is your ideal choice for maintaining a clean and hygienic pool environment.

KEY FEATURES:

Type:	Vacuum head on wheels
Material:	Plastic
Pool Type:	Liner & concrete pools
Connection:	1.5" (38 mm)
Model	With side brushes & without side brushes

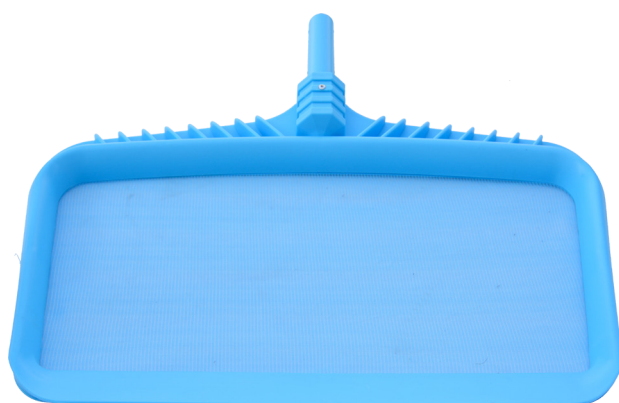

PLASTIC DEEP LEAF RAKE

Maintain optimal pool cleanliness with the LPS Rake, engineered for compatibility with all pool types.

Constructed from high-durability materials and featuring an advanced debris collection system, this rake facilitates efficient removal of debris

KEY FEATURES:

Type:	Rake
Material:	Plastic Handle, Plastic Frame
Pool Type:	Liner and Concrete Pools

PLASTIC LEAF RAKE

Engineered for compatibility with all pool types.

Constructed from high-durability materials and featuring an advanced debris collection system, this rake facilitates efficient removal of debris.

KEY FEATURES:

Type:	Rake
Material:	Plastic Handle, Plastic Frame
Pool Type:	Liner and Concrete Pools

TEST KIT FOR CHLORINE & PH

Lead the way in pool chemicals inspection with LPS pool test kit for chlorine and PH.

It stands out for its accurate results for swimming pools, jacuzzi, fountains and artificial lakes. It's the ideal choice for regular hygiene and maintenance usage.

KEY FEATURES:

Type:	Pool Test
Size:	20ml

ALUMINUM HANDLE & P.P BRUSH

Your pool's cleanliness companion the LPS Brush for All Pool Types.

This cleaning tools is your ideal choice for maintaining a clean and hygienic pool environment.

KEY FEATURES:

Material:	Aluminum handle & polypropylene bristles
Pool Type:	Liner and concrete pools
Size	45cm (18")

ALU. HANDLE & STAINLESS STEEL BRISTLES BRUSH

Achieve water purity with the LPS Brush, engineered specifically for concrete pools.

This cleaning tool is engineered as your optimal solution for maintaining a clean and hygienic pool environment

KEY FEATURES:

Material:	Aluminium Handle & stainless Bristles
Pool Type:	Concrete pools
Size	45cm (18")

PLASTIC HANDLE & P.P BRISTLES BRUSH

Unlock pristine pool waters with the LPS Brush,Tailored for Liner and concrete pools.

This cleaning tools is your ideal choice for maintaining a clean and hygienic pool environment.

KEY FEATURES:

Material:	Plastic handle & Plastic bristles
Pool Type:	Liner and concrete pools
Size	45cm (18")

ALGAECIDE

LPS Algaecide: An eco-friendly solution that eliminates algae by targeting phosphates, keeping pool water clear and compatible with all pool chemicals for hassle-free maintenance.

is an environmentally friendly solution designed to effectively eliminate algae by targeting and breaking down phosphates in the water. It ensures crystal-clear pool water without causing turbidity. Compatible with all pool chemicals, it offers a seamless and efficient algae control solution for any pool maintenance routine.

PRODUCT DESCRIPTION:

PACKAGE WEIGHT:	5 KG
PREVENTIVE DOSE:	1/2 L PER 100M ³ / WEEKLY
TREATMENT DOSE:	2L PER 100M ³

FLOCCULANT

LPS Flocculant: Clear cloudy pools fast! One dose keeps your pool sparkling for weeks—effortless, sediment-free results.

LPS Flocculant: A fast-acting solution that traps suspended particles in the pool water, allowing them to be captured by the filter without leaving sediment on the pool floor. With just a single dose every 3-4 weeks, it effectively clears cloudy water, ensuring a sparkling pool with minimal effort.

PRODUCT DESCRIPTION:

PACKAGE WEIGHT:	5 KG
DOSE:	2L PER 100M ³

POOL ACCESSORIES & FITTINGS

- CHECK VALVE
- STANDARD SKIMMER
- MESSAGE JET
- CIRCULAR & SQUARED DRAIN
- POOL WALL INLET
- POOL FLOOR INLET
- VACUUM INLET
- OVERFLOW GRATING
- POOL LANE ROPE

CHECK VALVE

Enhance your pool's performance and protection with LPS Check Valve.

Introducing our premium swimming pool check valve, engineered for reliability and peace of mind. Built from durable materials, it ensures seamless water flow while preventing back flow, safeguarding your pool equipment and maintaining optimal performance. Trust **LPS** for superior quality and unmatched durability in every splash.

KEY FEATURES:

- Prevent back flow: It stops water from flowing back into the pump from the outlet, which could cause damage to the pump.
- Protect the impeller: By preventing back flow, the check valve helps protecting the impeller from damage caused by the reversal of water flow.

TECHNICAL SPECS

Materials:	PVC
Fittings & parts:	ABS & PVC
Spring Material:	316 Stainless steel
Size:	Available in two sizes 50 mm & 63 mm

STANDARD SKIMMER

Introducing Our State-of-the-Art Skimmer Technology: Setting a New Standard for Pool Excellence!

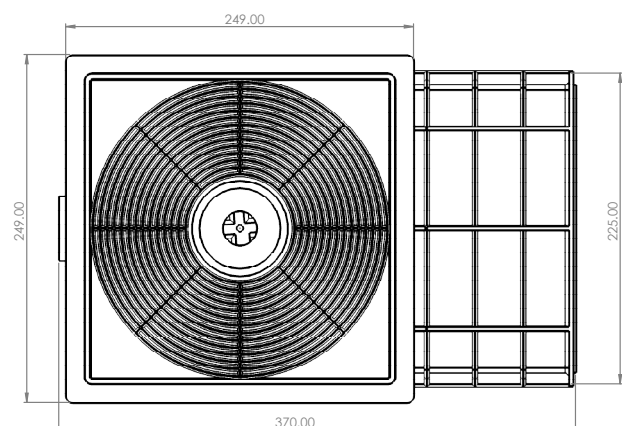

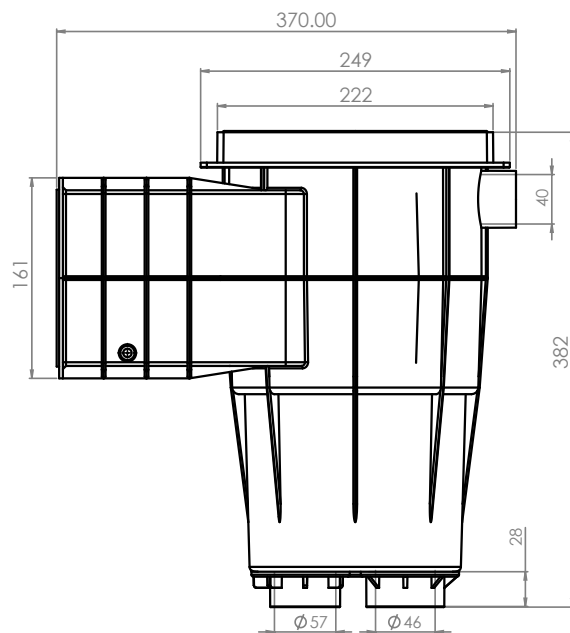

Dive into unparalleled pool maintenance with our cutting-edge skimmer technology, setting a new standard for excellence. Elevate your pool experience with a perfect blend of efficiency and sophistication.

KEY FEATURES:

- **Precision Debris Removal:** Impeccably clear your pool's surface for an inviting environment.
- **Adaptable Installation:** Versatile water connection options for easy installation methods.
- **Intelligent Water Management:** Superior control with adaptable adjustments and excess water removal.
- **Adjustable Lid Elegance:** Convenient adjustable lid for a flush fit and refined aesthetics.
- **Extended Compatibility:** Seamless integrates with various extension pieces for versatile pool design.
- **Streamlined Cleaner Connection:** Revolutionize maintenance with a central connection point for pool cleaners.

TECH. SPECS & DIMENSIONS:

- Skimmer crafted from durable ABS & PP plastic.
- Equipped with a "suction regulator" and basket locking mechanism.
- Skimming facilitated by "buoy float" or "floating Gate."
- 1 1/2" female threaded suction port, \varnothing 63 mm external slip.
- Second port: \varnothing 50 mm female slip.
- Overflow drainage: \varnothing 40 mm female slip.
- AVAILABLE IN DIFFERENT MODELS (LINER POOL/LONG MOUTH / WIDE MOUTH).

MASSAGE JET

Experience the ultimate luxury with LPS Massage Jet. Crafted from premium materials for an unparalleled spa experience.

Indulge in ultimate relaxation and rejuvenation with our innovative massage jet. Designed to enhance your spa or jacuzzi experience, Our jets provide targeted hydrotherapy, relieving muscle tension, improving circulation, and promoting overall well-being.

Experience the soothing power of water therapy and elevate your relaxation routine to new heights, and enjoy:

- Adjustable pressure settings.
- Ergonomic design.

KEY FEATURES:

Type:	Massage Jet
Material:	ABS & PVC
Connections:	Water and Air
Dimensions:	Ø 50 mm
Recommended Flow:	1.5 m ³ /h
Sizes:	Available in 2 sizes 1" and 1.5"

CIRCULAR & SQUARED DRAIN

Introduce a touch of luxury to your pool with MPT Main Drain Grilles accessories. Made from premium plastic materials.

KEY FEATURES:

Type:	Circular Drain
Material:	ABS plastic
Diameter:	Ø186-242 mm

KEY FEATURES:

Type:	Squared Drain
Material:	ABS plastic
Dimension:	9"x9" (23x23cm)

POOL WALL INLET

Attain optimal water clarity with LPS Wall Inlets, engineered to enhance circulation and filtration efficiency.

It's designed to cater swimming pools and spas of all sizes and is the perfect choice for regular hygiene and maintenance use.

KEY FEATURES:

Type:	Wall inlet
Material:	ABS Plastic
Diameter:	50 mm

POOL FLOOR INLET

Discover the benefits of crystal clear water with LPS Floor Inlets, designed to optimize circulation and enhance filtration for superior water clarity.

Designed for all pool and spa sizes, these accessories are ideal for maintaining a hygienic and well-maintained swimming experience.

KEY FEATURES:

Type:	Floor Inlet
Material:	ABS plastic
Size:	63mm
Adjustable for Concrete Pools	

VACUUM INLET

Boost your pool's cleaning functionality for a more effortless experience with LPS Vacuum Inlet.

Built with premium materials, and exceptional quality.

KEY FEATURES:

Type:	Vacuum Inlet
Material:	ABS Plastic
Diameter:	63 mm

UNDERWATER LIGHTING

- UNDERWATER LUMINWAVE LIGHT
 - WARM
 - DAYLIGHT
 - RGB (WITH REMOTE)

UNDERWATER LUMINWAVE LIGHT

Elevate your pool with our UNDERWATER durable, energy-efficient LED light!

- Featuring SMD LED, IP68 rating, and RGB options with remote control. Easy to install, built to last, and backed by a 1-year warranty.

KEY FEATURES:

- 24 WATTS
- Frame Construction: High-quality ABS material.
- Lighting Technology: Equipped with SMD LEDs for superior illumination.
- Durable Build: Features a 1.2 mm PCP, high-performance aluminum cooling system, and polycarbonate light body.
- Cable Specifications: 2x0.75 mm cable with a 2-meter length for flexible installation.
- Beam Angle: Wide 120° coverage for optimal light distribution.
- Waterproof Rating: IP68 certified for complete submersion and durability.
- Mounting System: Securely wall-mounted directly into the pool wall using corrosion-resistant stainless steel screws.
- Color Options: Available in White, Daylight, and RGB (with remote control for customizable lighting).
- Energy Efficiency: Low-power LED technology for reduced electricity consumption.
- Warranty: Backed by a 2-year warranty for reliability and peace of mind.
